

# EGYPTIAN LOOFAH Vegetal exfoliating

*Nature for Body Care*

## Loofah Products:

### Loofah seeds oil

The Loofah seeds oil is an excellent lubricant and externally used for shingles and boils, leprosy and skin diseases. The kernel of the seed is an expectorant, and used in dysentery.

In cosmetics, luffa cylindrical seeds oil is used for its antifungal, anti-inflammatory and anti-tumor prosperities.

Also Loofah seeds oil has been used in sunscreens, anti-aging products, facial moisturizers and treatments, body oil and facial cleansers.

### Loofah Soap

Natural components of soap gently nourish and moisturize your skin. Loofah gives good scrub effect. It helps your skin become renewed and stimulates blood flow. Also Loofah Soap is an excellent massager. In cosmetics,

### Loofah for bath

First quality Egyptian Loofah accessories provide soft and efficient skin exfoliation. Gloves, back strap, natural loofah and other shapes of accessories fit for all body parts. 100% natural and biodegradable, the vegetal loofah fibers provide deep cleansing and invigorating effect on the skin.

### Loofah Powder

Luffa exfoliator is presented as a powder made of particles which are very homogeneous in size. It allows an accurate and soft exfoliation.

Luffa Exfoliator is easy to process in cosmetics as the fibers remain stable and hard in any kind of products, even in though containing a large amount of water
